

At Nyack Hospital,

your emergency is our emergency.

Your medical care will begin within 30 minutes of arrival in the Emergency Room.

No one plans on needing the services of an Emergency Room, but patients and their loved ones can feel confident that they will be cared for by our staff of board-certified

physicians, physician-assistants, nurse practitioners and other healthcare professionals. We want to help you return to your active life as quickly as possible.

If you feel that we did not meet our 30 minute standard, you must inform the nurse prior to leaving the Emergency Room so that we may take appropriate action.
Note: Medical Care is provided by physicians, physician-assistants and nurse practitioners.

The 30 minute service standard will be in effect at all times with the exception of an internal or external disaster. The wait time will be based on the time stamps in Nyack Hospital Emergency Room's electronic medical record.

For further information about our 30 Minute Service Standard, please visit nyackhospital.org
